Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organisation, with around 9,700 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 365,000 enterprises from 318 national and regional sectoral industry bodies.

For 130 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with the Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness, and business opportunities for industry through a range of specialised services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Through its dedicated Centres of Excellence and Industry competitiveness initiatives, promotion of innovation and technology adoption, and partnerships for sustainability, CII plays a transformative part in shaping the future of the nation. Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes across diverse domains, including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

For 2025-26, CII has identified "Accelerating Competitiveness: Globalisation, Inclusivity, Sustainability, Trust" as its theme, prioritising five key pillars. During the year, CII will align its initiatives to drive strategic action aimed at enhancing India's competitiveness by promoting global engagement, inclusive growth, sustainable practices, and a foundation of trust.

With 70 offices, including 12 Centres of Excellence, in India, and 9 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with about 250 counterpart organisations in almost 100 countries, CII serves as a reference point for Indian industry and the international business community.

09 10 11 October 2025

Chennai Trade Centre, Chennai

The Indian automobile industry remains a key contributor to the national economy, with its total market value expected to reach \$247.4 billion by 2033. Tamil Nadu continues to play a leading role in the sector—producing 30% of the country's vehicles and 35% of its auto components, while attracting major new investments. The state's proactive initiatives have also positioned it at the forefront of EV manufacturing and automotive innovation. The new EV Policy aims to attract ' 50,000 crore in investments and create 150,000 new jobs, supported by the growth of dedicated clusters and parks across the state.

Confederation of Indian Industry (CII) with the aim of providing an ultimate business platform to aid the Automobile Industry has been organising Autoserve - India's Largest & Focused Exhibition on Automotive Care, Maintenance, Service, Parts & Garage Equipment's - Since 2004.

The 11th edition of “**Autoserve 2025**” is scheduled from **9 - 11, October 2025, at the Chennai Trade Centre, Chennai, India**. Concurrently, CII is launching its maiden edition “**International Auto Tech**” with the theme “**Global Mobility Transition – The Pulse of Change**”.

Autoserve 2025 Exhibition and Conference will focus on Automotive Innovation & Components, Automotive Care, Maintenance, Services, Parts, Alternative Fuels, Garage Equipment, Batteries, Tyre etc.

International Auto Tech (IAT) 2025 Exhibition and Conference will focus on following areas: EVs and Hybrid Technologies, AI & ML-driven predictive maintenance, Smart components & lightweight materials, IoT-enabled connected vehicles, Advanced Driver Assistance Systems, Battery technologies and energy storage, Others etc.

This 3-Days Exhibition and Conference would set a platform for all the stakeholders from the industry - manufacturers, OEMs, Dealers & Distributors, Solution providers, Traders, end users and policy makers across the globe to meet, network, interact and establish new business opportunities.

Event Fact Sheet

- 3 Day Exhibition
- Sectoral Conference
- 75+ Exhibitors
- 200+ Delegates
- Japan Pavilion - Japan Partner Country
- 12000+ Business & Trade Visitors
- Sectoral Supporting Association

www.ciiautotech.in

On the sidelines of the exhibition an International “Conference on Automotive Aftermarket 2025”, with the theme: “Driving the Next Decade: Innovation, Integration, and Intelligence in the Automotive Aftermarket” and “International Auto Tech Conference” with the theme “Accelerating Innovation: Smart, Sustainable, and Software-Driven Mobility” will be organised on 9 October 2025 (Thursday).

The Conference would focus on the latest trends, innovations, start-ups, skill development, R&D, equipment & technologies in the sector and will provide a platform for various stakeholders to learn the best practices and deliberate on the opportunities to build a strong growth trajectory for the Automotive Industry.

Automotive Aftermarket: Conference Sessions Overview

CxO Panel Discussion: Next-Gen Workshop Ecosystems (9th Oct 2025, Time: 1100 Hrs – 1200 Hrs)

Focus Areas: In this candid conversation, Smart garages, connected tools, and remote diagnostics are reshaping service delivery, while workforce upskilling for EVs and ADAS is becoming critical. The session will also examine independent repair versus OEM-backed service models and their implications for the future of workshop ecosystems.

▪ Session: Digital Transformation of the Aftermarket (Time: 1200 Hrs – 1330 Hrs)

Focus Areas: AI and IoT are enabling advanced diagnostics, predictive maintenance, and smarter inventory planning. Cloud platforms, telematics, and data monetization strategies are driving new business models, while digital twins and real-time service intelligence are reshaping aftermarket operations.

▪ Session: Impact of Electrification on the Aftermarket (Time: 1415 Hrs – 1530 Hrs)

Focus Areas: EV maintenance brings distinct service requirements compared to ICE vehicles. The session will focus on battery diagnostics, repair, and recycling, along with workshop readiness and technician training for EV servicing.

▪ Session: Sustainability and the Circular Economy (Time: 1530 Hrs – 1645 Hrs)

Focus Areas: The discussion will cover remanufacturing, reuse, and recycling of parts and components, along with ESG compliance and sustainability metrics. It will also highlight the impact of environmental regulations on the aftermarket supply chain.

International Auto Tech Conference:

▪ CxO Panel Discussion: The Future in Motion (09th Oct 2025, 1115 hrs – 1215 hrs)

Focus: Software-Defined Vehicles (SDVs), Sustainability, Connected Mobility, Autonomous Driving, New Business Models, Global Trends

▪ Session: Smart & Connected Vehicles (1215 hrs – 1330 hrs)

Focus: V2X, 5G, Edge Computing, AI-Driven UX, Cybersecurity, Data Privacy

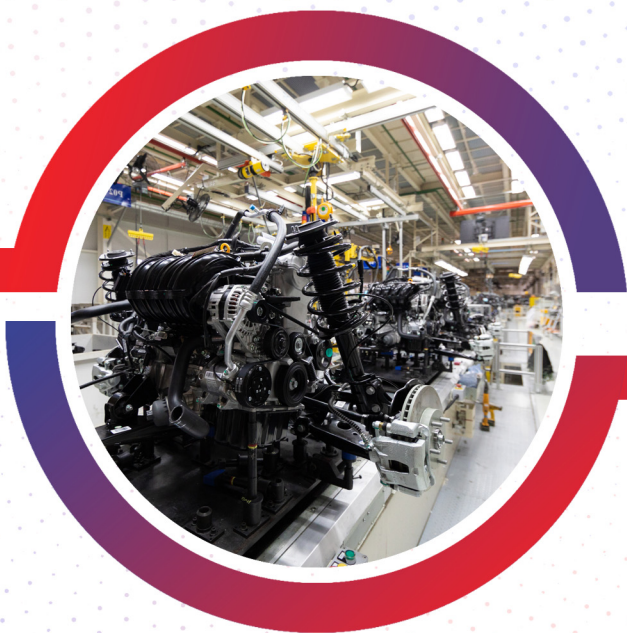

▪ Session: Software-Defined Vehicles – The Future of Transportation (1415 hrs – 1530 hrs)

Focus: SDV Architecture, APIs, AI, IoT, Predictive Maintenance, ADAS, Smart Cockpits

▪ Session: Sustainable Manufacturing, Electric & Alternative Energy Vehicles (1530 hrs – 1645 hrs)

Focus: Green Production, Circular Economy, EV Lifecycle, ESG, Battery Innovation, Hydrogen Vehicles

Contact Executive: Aadhith Sunil, Marketing Manager

Organisation Profile: Isuzu Motors India Private Limited (IMI), a subsidiary of Isuzu Motors Limited, Japan, was established in 2012. Headquartered in Chennai, the company offers popular models like the ISUZU D-Max V-Cross, Hi-Lander, mu-X SUV, and a range of commercial pick-ups including the S-CAB, Regular Cab with its cab-chassis variants. Recently, IMI launched the fully-built D-Max Type C Ambulance. Isuzu Motors India's modern manufacturing facility is in Sri City, Andhra Pradesh, spread across 107 acres. The company began its manufacturing operations in April 2016, with strong focus on quality and commitment to Indian market. In February 2020, IMI commenced the start of its Phase-II operations with the inauguration of the state-of-the-art Press Shop facility and Engine Assembly plant. The Sri City facility plays a significant role in expanding the global footprint, producing vehicles not only for India, but also for the export markets including Nepal, Bangladesh and Bhutan (since 2017). IMI commenced exports to the GCC markets from 2019. In FY2024-25, Isuzu Motors India emerged as the leading exporter of commercial vehicles from India, registering a 24% year-on-year growth. The company continues to expand its global presence with trusted, Made-in-India vehicles. IMI has established a dedicated network of dealer touch-points, conveniently located in 90 locations across the country. For more information on the company, and its products/services. www.isuzu.in

Organisation Profile: Filtration is everywhere. We filter the air we breathe and the water we drink. Filtration can be found in our cars, refrigerators and even in our showers and coffee machines. Without filtration, there is no baby food, no computers, no medicines. And certainly no clean, safe planet. Can you imagine a world without filtration? A world where almost nothing is safe? Neither can we. That's why we at MANN+HUMMEL work every day on filtration solutions for cleaner mobility, cleaner air, cleaner water and cleaner performance & industry. As one of the world's largest filter manufacturers, we want to understand how this world works - and make it a little better every day. Our goal is to protect people, nature, and machines. By using filtration to separate the useful from the harmful. For more than 80 years, we have stood for leadership in filtration. As a family-owned filter company with German roots, we operate globally at more than 80 locations. For our filtration solutions, we use the combined know-how of our employees, a global research and development network, and the opportunities offered by digitalization. The future is being decided now. That is why today we provide filtration solutions for tomorrow.

Products & Services On Display: Our filter portfolio offers holistic solutions for cleaner mobility. With us, vehicles are protected from pollutants that would otherwise attack engine parts and fluids. Our filters protect vehicle users and instantly transform cars and commercial vehicles into mobile air filters that can remove particulate matter and pollutants like nitrogen oxides from the air. We bring over 80 years' experience to both traditional and new industries, transferring our extensive knowledge of combustion engines and applying it to alternative drives like hybrids, e-cars and fuel cells. With MANN+HUMMEL you benefit from: Highest filter quality for more efficiency and sustainability Customized special solutions and standardized filtration components and systems A comprehensive portfolio that covers all areas

Contact Executive: Manish Kapur, Trade Marketing Lead

Organisation Profile: Uno Minda is leading global manufacturer and supplier of innovative automotive components and systems for OEMs. We design and produce over 28 categories of components for vehicles across all segments—including passenger cars, commercial vehicles, and two- and three-wheelers—serving both internal combustion engine (ICE) and electric/hybrid vehicles. We are amongst the leading manufacturers of automotive switching systems, lighting systems, acoustic systems, seating systems, and alloy wheels. We hold a leadership position in India across nearly all our product categories. Technology and innovation are the two strong pillars that have enabled us to stay ahead of emerging trends in the automotive industry for over six decades. As a global player in the automotive sector, the Group operates 75 manufacturing facilities across India, Indonesia, Vietnam, Germany, Spain, and Mexico. Beyond business, Uno Minda is deeply committed to responsible and sustainable practices. Our core principles are centred around customer responsiveness, sustainable innovation, and a culture of respect and ethics.

Products & Services On Display: Automotive Switches, Lightings, Horns, Filters, Seating, Braking, RVM, Lubricants, Alloy Wheels, Batteries and Accessories.

Society for Smart E-Mobility (SSEM)

The Society for Smart E-Mobility (SSEM) is a registered Not-For-Profit Association of Industries, Institutions and Professionals with interest to work & contribute in developing future mobility solutions focusing on autonomous, connected, electric and shared services formed in Coimbatore. We have more than 80+ active members from the Electric Vehicle Industry and Academic Institutions in Coimbatore and other places.

Objective

- To establish a platform to connect all stakeholders in the smart mobility domain.
- To collaborate with Research Institutions and be a catalyst for sharing of knowledge and development of skills.
- To facilitate setting up of manufacturing hubs specific to Electric Vehicles and Components.
- To be the messenger of Industry needs and suggestions to the Government and regulatory agencies.
- To organise B2B meetings between local and overseas manufacturers engaged in emerging technologies related to future mobility.

SSEM has been a part in supporting the Government in formulating the EV Policies and also to establish a Common Facility Centre (CFC). We organise Exhibitions, Conferences, Seminars, Workshops, Webinars, visit to Electric Vehicle and allied component manufacturing industries etc., regularly for the benefit of our members. The "World Electric Vehicle Day – 9th September" which is celebrated internationally is organized by SSEM every year as one of its very important activities. On this occasion SSEM organises an Awareness Rally & Roadshow for the general public, a flagship event in Coimbatore with the support of Coimbatore District Collector, Corporation Commissioner, Police Commissioner along with the Bureaucrats related to EV Industry.

We conduct various events with the support of Government Agencies like Automotive Research Association of India (ARAI), Global Automotive Research Centre (GARC), International Centre for Automotive Technology (ICAT), Engineering Export Promotion Council (EEPC); Additional Skill Acquisition Programme, Kerala and closely working with national level industrial associations like Automotive Component Manufacturers Association of India (ACMA), Automotive Skills Development Council (ASDC), Confederation of Indian Industry (CII), Coimbatore District Industries Association (CODISSIA); Scientific and Industrial Testing and Research Centre (SITARC), World Resources Institute (WRI) etc.

As an EV association we would extend our fullest support and co-operation for the benefit of the Society.
